DAILY Nevada State Journal.

WASHOE COUNTY OFFICIAL PRESS

SATURDAY, JUNE 19, 1875.

THE WEEKLY JOURNAL.

The WEEKLY JOURNAL, published every Saturday, will be furnished to those desiring it at $4.00 per year in advance. It will contain the local news of the week, a careful summary of the State, Pacific Coast and mining news, together with a variety of miscellaneous and editorial matter, containing more reading than any weekly paper ever published in the county. Those desiring to subscribe for the WEEKLY JOURNAL will please call at the publication office.

THE life of Byron is worked over often by British authors. The London *Telegraph* announces a new book illustrating the career of Lord Byron in Italy, and more especially his relations with the Countess Gniccioli. Of course this will tell us (for the hundredth time) of the waywardness and loose morality of England's great son of song. Where is Mrs. Stowe about these days? Or has she heard enough of her brother's scandals to cloy her appetite for more defamation of a dead author? And yet brother Beecher cannot be accused of the genius nor lechery of Lord Byron.

ODD FELLOW'S HOSPITAL.—The *New Age* says that the idea of forming a hospital for Odd Fellows in San Francisco is crystallizing into shape, and that the General Relief Committee of that city has taken the initiatory steps to an organization, for the purpose of devising a plan for the establishment of a hospital for the use of Odd Fellows who require medical care and attention there.

BOSTON celebrated grandly on Thursday. Twenty thousand troops were reviewed by Governor Gaston, General Butler commanding the review. Regiments were under arms from New York, Pennsylvania, Maryland and South Carolina. Foreign Ministers, Vice President Wilson, Generals Sherman, Burnside, Hawley, Chief Justices, Governors and members of Congress were present. General Charles Davens was the orator.

GEN. Badeau (formerly on Gen. Grant's staff) is writing an elaborate work on the late war, and it is understood that it is under the supervision of Grant, which will, practically, make it a sort of semi-official history of that conflict. The writing up of Badeau's volume (it is thought) hastened the publication of General Sherman's *Memoirs*, which the author did not intend to have published until after his death.

THE COTTON CROP.—The Department of Agriculture, in the cotton report for June, states that the threatened reduction in area has not taken place nor has the reduced area of last year been much enlarged. The report of the condition is the most favorable for the past five seasons, with the exception of that of 1872.

THE NEW TREASURER.—J. C. New, who succeeds General Spinner as Treasurer of the United States on the 1st of July, is expected in Washington on the 25th instant, when arrangements will be made for an actual count of all money on hand. It is believed that ten or fifteen experienced counters can complete the work in one week.

THE Milwaukee News says that ex-Senator Carpenter intends taking an active part in the approaching gubernatorial canvass in Wisconsin, as a preliminary to ulterior efforts to regain the United States Senatorship.

NEVADA MINING NEWS.

In its local mining review, the Gold Hill *News* of Thursday has the following:

California.

The cross-cuts are being gradually extended at all points on the 1500-foot level, and lateral drifts are being run to connect the cross-cuts, so as to afford the most complete ventilation of the mine in every quarter by the time the new mill is completed, ready for the reduction of ore. On the 1400-foot level the same system of cross drifts and prospecting is being carried out, which, in connection with the various winzes already sunk and now being prosecuted at various points will make it one of the best ventilated mines on the Comstock, by the time everything is in readiness to commence the extraction of its rich ores. Sinking of the C. & C. shaft is making good progress. It is now down 550 feet. A strong force of stone masons are employed on the foundations for the machinery; which are being pressed to completion with all the vigor possible. The erection of the new mill is also making rapid headway.

Belcher.

Daily yield, 400 tons of ore. Thefe is no change of interest or value in the character of the ore extracted, or the general appearance of the ore producing sections of the mine. The main north drift on the 1500 foot level, is being rapidly driven ahead to connect with the south drift on the same level from the Crown Point, for ventilation purposes. Preparations are also being made for the commencement of ore stoping on the 1500-foot level. The main incline is down 50 feet below the 1600-foot level, the bottom in good working ground. The 1600-foot station is being opened, preparatory to commencing the development of that level. The air shaft is completed down to the 1200-foot level. The mills are all kept steadily running on ore from the mine, and everything in and about the mine is in fine working condition.

Ophir.

Daily yield, 150 tons of ore. The ore breasts and stopes on the 1465-foot level show no change of value during the week. Repairing the east drift on the 1500-foot level is making steady progress. Sinking the winze below the level of the southwest drift on the 1645-foot level is making slow progress, on account of the great heat. There is no change of interest to record of this portion of the mine. Driving the east crosscut on the 1700-foot level is making steady headway, with some more favorable indications of reaching the ore vein at no distant day. The heavy dressed stone blocks for the reception of the new and powerful incline machinery are in place ready for its reception.

Crown Point.

Daily yield, between 550 and 600 tons of ore. The ore breasts continue their usual yield without any sign of exhaustion, the indications if anything, tending to show an improvement in the quality of the ore extracted; the yield for the past month being over $50,000 above the cost of extraction and milling. The increased prospects of the ore vein on the 1600-foot level is also giving strong hopes of a paying body of ore when the ledge is reached on the 1700-foot level. The mills are all kept steadily running up to their full working capacity, and the general outlook of the mine is certainly more prosperous than for some time past.

Consolidated Virginia.

Daily yield, 600 tons of ore. The ore breasts throughout the mine are all looking well, and show no abatement in either the quantity or quality of ore extracted. No work is yet being done on the 1550-foot level with the exception of the raising up of a winze 12 feet square for air purposes; this winze is passing through fine ore and is rapidly approaching completion. The prospecting of the upper levels of the mine is very nearly completed, so that but little now remains to be done except to extract and mill the ores. The mills are all kept running up to their full working capacity, and the yield of bullion for the month will not vary much from $1,500,000.

BOOTS AND SHOES, ETC.—It is an established fact that these articles can not be got along without. Hence, it necessarily follows, that in the purchase of them we should not only look to price but to quality, for none of us desire to pay an extortionate price for an inferior quality of boot or shoe. There is no doubt but that John Sunderland can give us complete satisfaction in both respects. Then to Sunderland's, (on Virginia street), we will go, for boots, shoes, slippers, and all goods of that class.*

THE EVILS OF ALCOHOL AND TOBACCO.

Maria H. Holden, of Waterville, Minn., has this to say on the subject:

Alchol is carrying down to disgrace, poverty and destruction many of the most talented men in the country. It is carrying toward destruction, multitudes of the brave and noble young men in our land. All the crimes on earth do not destroy so many of the human race nor alienate so much property as drunkenness. In the United States 133,000 places are licensed to sell spiritnous liquors. In these dram shops 390,000 persons are employed. If we add to these the number employed in distilleries and wholesale liquor-shops we shall have at least 570,000 persons employed in sending their fellow mortals to premature graves. Crime is mostly caused by drunkenness. Criminals are an expense to the United States of $40,000,000 per year.

But alcohol is not doing all this without the aid of its companion, tobacco. Yes, tobacco has utterly ruined thousands of boys. A boy who smokes early and frequently, or in any way uses large quantities of tobacco, is never known to make a man of much energy, and generally lacks ambition and mental power. Therefore we would warn boys who want to be anything in the world to shun tobacco as a most baneful poison.

Don't touch it any form; it does no good, and a very great deal of harm. You cannot properly be called a gentleman so long as your lips are saturated with a disgusting poison. Would a gentleman poison the air with sickening smoke, or deluge the floor with liquid filthiness? Never. Tobacco enfeebles the mind; it makes a man old and nervous. As it is an intoxicant, it exerts a special influence on the brain, and by weakening the nerves produces excitability.

Young man, you *last* you *chiefest*, let me implore you whose precious precious it still is to make life long by commencing the performance of its duties early. Where lie your own welfare, your own honor, your own blessedness? Lie they not in that future course of life which is to flow out of your own minds and hearts, and which your own hands are to fashion as the temple is fashioned by the builder?

Remember boys, you need not expect to enjoy a life of usefulness if you begin by loving the tobacco pipe or whisky bottle.

The Society of Women.

No society is more profitable, because none more refining and provocative of virtue, than that of refined and sensible woman. Her beauty will win, her gentle voice invite, and the desire of her favor persuade men's sterner souls to leave the path of sinful strife for the ways of pleasantness and peace. But when woman falls from this blest eminence, and sinks the guardian and cherisher of pure and rational enjoyments into the vain coquette and flattered idol of fashion, she is unworthy of an honorable man's admiration. We honor the chivalrous deference which is paid in our land to women. It proves that our men know how to respect virtue and pure affection; and that our women are worthy of such respect. Yet woman should be something more than mere woman to win us to their society. To be our companions, they should be fitted to be our friends; to rule our hearts, they should be deserving the approbation of our minds. There are many such, and that there is no more is rather the fault of our sex than their own; and despite all the unmanly scandals that have been thrown upon them in prose and verse, they would rather share in the rational conversation of men of sense than listen to silly compliments of fools, and a man dishonors them, as well as disgraces himself, when he seeks their circle for idle pastime, and not for the improvement of his mind and the elevation of his heart.

MANY people seem to think bills are intended as keepsakes. They receive them very graciously, speaking so gently about them that you are really glad you had the opportunity to present them; then they put them in their pocket or desk, and go on their way rejoicing, while you wonder that they make no reference to the little matter of payment, which was really the only point you had in view in the transaction. Well, politeness is a truly good thing, and we cannot have to much of it, but, then—it don't pay the expenses of a newspaper.

NODS.—Allen Bragg, of Camp 18, was in town yesterday seeing the sights.

Rev. S. P. Kelly, Supt. of Public Instruction, is the guest of Rev. Wm. Lucas. Mr. Kelly has been very ill, but is now recovering.

Town Trustee Bender, of Carson, came over yesterday. With all her faults he loves Reno still.

FURNITURE STORE.—Mr. McClure has taken the old Bender Bank building for his furniture store. He will open out next week, and his stock will include almost every article suitable for a parlor, bed room, dining-room, bath-room, library, sitting-room, kitchen and boudior of a miner's cabin or a millionaire's mansion.

POSTPONED.—The assessment levied by the Black Warrior will not be delinquent in office till August 15th. This will give stockholders a little longer lease of their money.

THE PICNIC.—The weather promises fine for the Knights of Pythias picnic to-day. The picnic will be one of the events of the season.

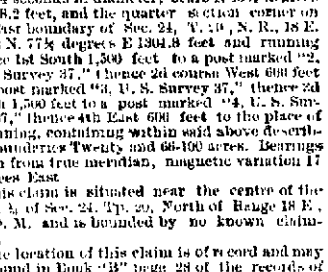
THE THOROUGHBRED TROTTING STALLION

RIFLEMAN!



Will stand the present season at Longley's Ranch six miles south of Reno, Nevada, season commencing April 1st and ending July 1st, 1875. Terms of service thirty dollars, payable in United States gold coin, before the close of the season.

Description:

Rifleman is a beautiful bay, 15¾ hands high, and is the handsomest horse and the best bred trotter in the State. He has as much Messenger blood in his veins as Smuggler, the champion stallion of America, that won the stallion race at Boston, in 1870. Rifleman's colts are all very stylish and large and show fine trotting action. I will show his colt Morgan Chief at the next State Fair against any colt of his age west of the Rocky Mountains, I will also give a premium of $20 to the best suckling colt from Rifleman that is shown at the State Fair next Fall.

Pedigree:

Rifleman was sired by the Thoroughbred Stallion Rifleman and he by Imp. Glencoe, dam by Randolph, out of Butterfly by Sumpter. His dam was the Thoroughbred mare Lady Davis by Red Bill by Medoc and he by American Eclipse out of Miller's Damsel by Imp. Messenger. I have good pasturage at $4 per month for the accommodation of mares from a distance. I take good care of mares, but will not be responsible for accidents or escapes should any occur. No mares delivered until all charges are Paid.
